

VNE FIFTY-FOUR

The VNE Fifty-Four is a revolutionary change machine able to change notes to coins and coins to notes.

Three universal hoppers and one note recycler make the machine very functional and easy to operate.

A small opening in the front of the cabinet makes it possible for the machine to accept different coin denominations at once. At the push of a button, the mechanism will count, validate and divide the coins into the correct hopper.

The VNE Fifty-Four features an MD-100 banknote recycler, capable of accepting all European currencies. The inclusion of this dispenser allows the Fifty-Four to store and return up to 100 notes of 3 denominations. Approximately 500 notes can also be held in the stacker.

Also featured is an F2 NRI coin validator, allowing the Fifty-Four to count, validate and distribute coins into their allocated hopper at a speed of approximately 10 coins per second.

FEATURES

- 3 universal hoppers and 2 different recycle denominations to select
- Overflow cashbox vault
- Optional printer to print operations
- 'ibutton' for different access level
- Optional 3 Fujitsu banknote dispensers in addition to MD-100

Description	Part #
VNE SUPER CHANGE	XXXXXXXXXX

TECHNICAL SPECIFICATIONS
