

VNE COMPACT CHANGE

The VNE Compact Change machine offers a very efficient and quick notes to coin change option.

Compact Change has a very unique and elegant design which, in combination with its small size, makes it suitable and easy to fit in any kind of environment.

Two options are available in terms of denominations. The discriminator hopper is capable of accepting three different denominations of coin, while a single coin hopper is also available. These are based on GBP 1 measurements of 22.5mm diameter and 3.1mm thickness.

FEATURES

- Accepted notes and dispensed coins can be changed by dip switches
- Possible to refill without opening machine
- Optional discriminator hopper - able to handle 3 different kinds of coin
- Personal artwork available
